students.

When A Baby Dies...

We usually expect a birth to be a joyful event, not a sad one. In normal situations no-one expects a baby to die. The death of a baby brings many intense feelings.

This seminar will address the grief experienced and provide participants with knowledge and strategies for supporting those left grieving the loss of a baby.

The day will offer 4 expert Guest speakers. More information and details to follow shortly. Please save the date in your diary.
